

Eastern Neighborhoods Community Impact Assessment Process Flowchart – November 2005

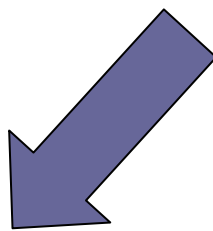

What the Council completed (November 2004 – September 2005)

- Developed a **Healthy City Vision**
- Developed **community health objectives**
- Developed measurable **indicators** to reflect our objectives
- Generated and presented **data** on indicators and objectives
- Identified **policies and strategies** to advance objectives
- Conducted **research** on policies and strategies
- Developed **policy briefs** that summarize background, potential implementation route, advantages, disadvantages and case studies/evidence of policies and strategies
- Developed **policy evaluation criteria** to appraise policy briefs

Where we are currently - Policy Evaluation Exercises (October 2005 – December 2005)

- Small group breakouts to apply evaluation criteria to draft policy briefs
- Council discussion of strengths, weaknesses, information needs, and amendments to policy briefs

Where we are going (January 2006 – May 2006)

- Review and revise policy briefs and policies/strategies
- Rank and prioritize policies/strategies
- Make recommendations on policies/strategies to relevant agencies
- Identify Council members or other sponsors to advance policies/strategies towards adoption and implementation
- Identify key monitoring indicators for the *Healthy City Vision*
- Begin policy monitoring process
