**RE: Invitation to Join Technical Advisory Committee for Treasure Island
Bicycle/Pedestrian Plan**

Dear XXX,

We are pleased to announce that the City & County of San Francisco is embarking on an exciting and ambitious community-based effort to make Treasure Island a top-tier walking and bicycling environment. This is part of the City’s priority to implement the best environmental and healthy transportation practices in this dynamically changing neighborhood.

The San Francisco Department of Public Health (DPH) has received a Community-Based Planning grant from the State Department of Transportation (Caltrans) in order to create a Bike & Pedestrian Plan for Treasure Island through an extensive community outreach process. During the next two years, we will partner with the nonprofit San Francisco Bicycle Coalition (SFBC) in this endeavor.

We invite you to be part of a small technical advisory committee to help guide this process. We believe that you would be a valuable addition to this group of community leaders who will help shape and oversee our important work.

The time commitment will be minimal, likely including a quarterly meeting and several requests to review draft plans. We hope that you will agree to help us make San Francisco’s newest neighborhood-in-the works a model community for bicycling and walking for both residents and visitors.

Please contact us at treasureisland@sfbike.org or call 415-431-2453, x-306 to let us know of your interest. We hope that you will bring your ideas and energy to this community planning process. Thank you in advance for your support, and we look forward to working with you.

Sincerely,

Cynthia Comerford Scully
Senior Health Program Planner
